

UNLOCK THE POTENTIAL

Fondation
du Nord
en cancérologie

Health Sciences North
Horizon Santé-Nord

THE CURRENT SITUATION

- ◆ HSN runs its sole MRI 24 hours a day, 7 days a week.
- ◆ Right now HSN patients MRI wait times are 30% below provincial average.
- ◆ Our doctors rely on better image clarity for accurate diagnosis.
- ◆ Current 1T MRI is 10 years old and is often down for maintenance.

THE SOLUTION

\$7 million is needed to upgrade Health Sciences North Existing MRI and purchase a new, 3 Tesla MRI.

Become a part of the solution by joining us in donating funds to purchase this life changing medical equipment.

MINERS SUPPORTING MINERS

Having this 3T MRI in Sudbury will be a game changer from a diagnostic perspective for diagnosing breast and soft tissue cancer at an earlier stage. This second machine will also help shorten current wait times for patients waiting to receive a MRI scan.

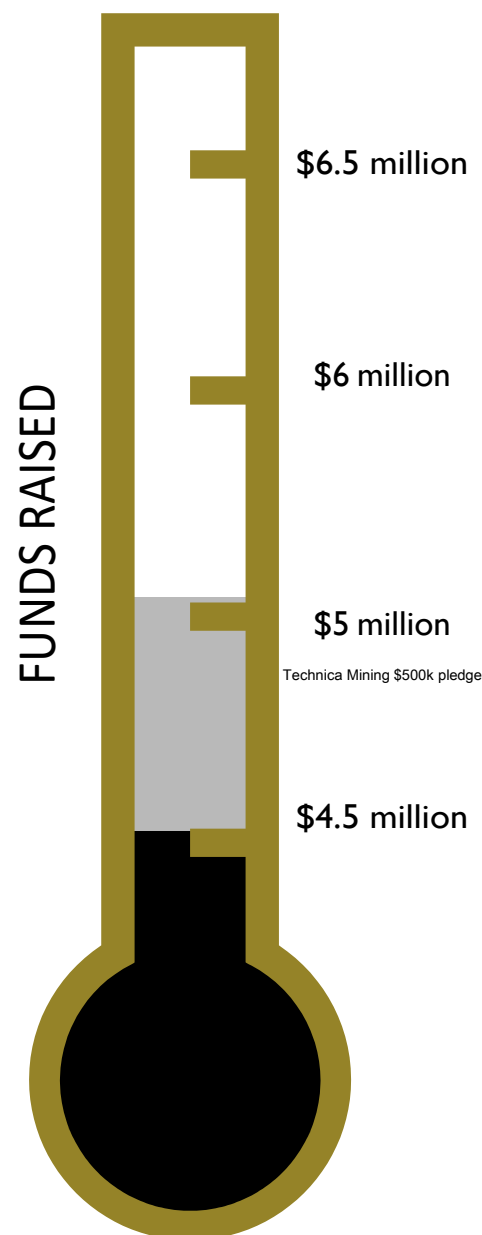

ENHANCED CARE

- ◆ Reduce wait times.
- ◆ Increase screening capacity.
- ◆ Access to more than one unit reducing down time for service and equipment failures.
- ◆ Improving diagnosis and treatment.
- ◆ Reducing travel time and costs for patients.

JOIN THE LEGACY

Technica Mining has pledged a \$500,000 donation over 3 years to help raise the funds necessary for Health Science North to purchase a new, state of the art, 3T MRI machine. Technica Mining invites you to become part of this legacy that will improve diagnostic capacity and lives in our community.

\$7 million
